RESOLUTION.—By the Government of India, Foreign and Political Department.

In paragraph 2 of the Resolution by the Government of India in the Foreign Department No. 2435-Est.-A., dated the 1st September 1911, concerning the introduction of a scheme for the reorganisation of the Political Department of the Government of India, it was declared that future entrants into the Political Department, both civilians and military officers, would be graded strictly in accordance with the date from which each officer is entitled to count his service for increment under the time scale. The strict application of this rule to a group of military officers selected simultaneously for the department has given rise to certain difficulties, while similar difficulties are also liable to occur in the event of two or more officers of the Indian Civil Service of the same year being taken into the department.

2. With the approval of His Majesty's Secretary of State for India the Government of India are accordingly pleased to decide that seniority in the Political Department will be governed by the following rules :—

(1) The seniority *inter se* of military officers recruited for the department simultaneously shall be regulated by the dates of their first commissions.

(2) The seniority *inter se* of members of the Indian Civil Service shall be reckoned in the same manner as in the Provinces; that is to say, according to the order in which they stand on the list resulting from the combined marks of the open competitive and final examinations for admission into the service.

(3) The relative seniority of a member of the Indian Civil Service on the one hand and of a military officer on the other shall be determined with reference to the length of their service in the Indian Civil Service and the Political Department, respectively.

The above rules will govern the seniority of all officers admitted into the Political Department subsequently to the 1st September 1911.

An application has been received from the Madras Electric Supply Corporation, Limited, for sanction to—

(1) The use, in any part of the area of supply covered by the "Madras (Port) Electric License, 1909" and the "Madras (Cantonments) Electric License, 1910," of the alternating current system of supply of electric energy as described in the letter, dated 8th May 1912, from the Managing Agents of the Corporation, (copy annexed) in addition to the system of supply already prescribed in those licenses, subject to the following three conditions:—

(*a*) No transfer of an existing consumer from the direct current to the alternating current shall be carried out without the consent of the consumer concerned.

(*b*) If any such transfer is carried out at the desire of the Electric Supply Corporation, the Corporation will in all cases, and without any exception, bear the cost of new fittings and any other expenditure which may be involved in the transfer.

(*c*) Any existing consumer of direct current energy for domestic purposes shall be entitled to claim an extension of his installation on the same system, provided the extension is to be used only for domestic purposes. In the cases of those consumers who on the 1st October 1914 were being supplied with direct current energy for factory purposes, they shall be entitled to claim an extension of their installation on the same system, provided the extension is to be used only for factory purposes.

(2) A change of frequency in the alternating supply from 25 to 50 cycles per second in the case of the two licenses.

2. With reference to the last paragraph of clause 6 of the "Madras (Cantonments) Electric License, 1910," the Government are pleased to sanction with the concurrence of the General Officer Commanding, 9th (Secunderabad) division, the modifications referred to above in respect of that license.

3. In the case of the "Madras (Port) Electric License, 1909," it was considered that a formal amendment of the license was necessary to cover both the modifications referred to in paragraph 1 above and so, under the provisions of rules 13 and 22 of the Indian Electricity Rules, 1914, the Corporation have published a notice of their application by public advertisement in three successive issues of three local newspapers and the Government republished it once in the *Fort St. George Gazette*. No criticism or objection has been received from the public in response to that notice. The Chairman, Madras Port Trust, who was consulted in the matter has also not raised any objection to the proposal. In the circumstances, the Government are pleased to accord the sanction applied for by the Electric Supply Corporation in respect of the "Madras (Port) Electric License, 1909," also.

GOVERNMENT OF INDIA TERMINABLE LOAN.

Notice as to the Conditions on which the Public May Subscribe through the Post Office.

The Government are raising this year's loan in a new form carrying 4 per cent. interest. It will be repaid in full not later than November 1928, but Government can repay it if they wish any time after October 1920.

2. Rupees 4½ crores have already been raised in the usual way by the receipt of applications at Calcutta, Madras, Bombay and other large centres, and, so far, the loan is now closed. But in addition a special opportunity is being given to persons who wish to take up the loan in small amounts, whether they are savings bank depositor or not, of subscribing through the nearest post office which transacts savings bank business.

HOW TO SUBSCRIBE.

3. Applications through the post office can be made any time up to the 30th October.

4. Applications must be for even hundreds of rupees and for not less than Rs. 100 and not more, in the case of any one applicant, than Rs. 5,000.

NOTE.—An applicant may apply for the new loan up to Rs. 5,000, notwithstanding that he already holds 3½ per cent. Promissory notes previously purchased through the post office.

5. A person desiring to apply must fill up the form below, which can also be obtained at any post office which transacts savings bank business. He must at the same time pay the full amount for which he applies. For this purpose he can use the money in his savings bank account if he is a savings bank depositor, or he can pay in cash direct. The applicant may go to the post office himself or send a messenger. All amounts paid will be acknowledged.

6. For every Rs. 100 which the applicant pays he will receive Government Promissory notes for the same amount.

CUSTODY OF PROMISSORY NOTES.

7. The notes may either be kept by the applicant in his own custody or, if he prefers, they may be retained in the custody of the post office authorities on his behalf. He should state which method he prefers in filling up the form of application. If he wishes to keep the notes himself, the post office will advise him when they are ready for delivery, and, on his presenting himself personally, they will be made over to him. If he decides to leave them with the post office, his personal attendance will not again be required, but the post office will send him an intimation in due course that they have been received and are held on his behalf. Should he at a later date desire to keep the notes himself, they will then be made over to him.

PAYMENT OF INTEREST.

8. Interest at 4 per cent. a year will be paid half-yearly, *i.e.*, 2 per cent. on the 31st May and 2 per cent. on the 30th November every year. For the broken period from the date of subscription to the 30th November next, interest will be paid in cash at the time the Promissory notes are delivered if the applicant keeps them himself, or will be credited into the savings bank account mentioned in the next paragraph if he leaves the notes in the custody of the post office authorities.

9. If the applicant decides to leave his Promissory notes in the custody of the post office authorities, the latter will draw the interest for him regularly each half-year and credit the amount into a savings bank account which will be opened for this purpose in his name. The post office will also inform him from time to time whenever interest is thus received. No charge will be levied for this service, and no income-tax will be deducted in making the half-yearly payments of interest.

If he keeps the Promissory notes himself, income-tax will be deducted from interest in the usual way at the time the half-yearly payments are made.

SALE OF PROMISSORY NOTES.

10. If at any time a savings bank depositor who holds Promissory notes in this new loan, which have been purchased through the post office by the procedure here described, desires to sell them again, or any part of them, the post office will arrange this for him without charging brokerage or other fees. Full particulars as to this can be obtained from the post office at any time.

An examination in School Management and the Art of Teaching under article 63 of the Code of Regulations for European Schools, Madras and Bangalore, will be held on the 13th of December 1915. The centres of the examination will be notified later.

2. The examination is open to European teachers who have taught in recognised European schools in the Presidency of Madras or the Civil and Military Station, Bangalore, for not less than two years since December 31st, 1906, under the observation of the Inspector of European Schools, Inspector of schools, 9th Circle, or an Inspectress of Girls' Schools, and who have satisfied the Inspector or Inspectress concerned as regards their methods and skill in teaching and in class management.

Applications should be made on printed forms which can be obtained from the Inspector of European Schools, Old College, Madras, S.W., and should reach the Inspector not later than 10th October 1915. They should be accompanied by a covering letter, in which should be quoted any remarks made by the inspecting officer in table (5) of the annual inspection reports of the present

and previous years relating to the status of the teacher and his or her eligibility to appear for the examination. It should also be mentioned whether the applicant has appeared for the examination before.

Applications from teachers employed in schools should be submitted through the Inspecting officer concerned in order that the latter may have the opportunity of granting the certificate of eligibility appended to the printed form of application. No fee need be paid before the submission of this application, but such teachers as are found eligible after scrutiny of their applications will be required to pay the prescribed fee (rupees five) before admission to the examination.

3. Applications from teachers who seem to satisfy the conditions of admission on the date of receipt of this notification should be submitted as soon as possible, in order to facilitate verification in this office of the facts stated in the applications and to afford ample time for determination of their eligibility or the reverse.

4. Candidates anxious to assure themselves that their applications have been received should enclose an addressed post card in their respective applications. The post card should bear the sender's address only and no other writing. Such post cards will be returned to them in due course with the Inspector's acknowledgment.

5. The following is the curriculum or the examination for the Middle and the Primary Teachers' certificates. The same papers may be set for both grades, but may contain a certain number of alternative questions of a simpler nature for candidates of the Primary grade :—

School Management.

The use of inductive rather than deductive methods.

(2) Perception and apperception.

Geography.—Its relation with nature study on the one hand and history on the other—importance of abstraction or generalization in geography teaching—the real meaning and use of maps—map drawing not map-copying—other useful apparatus.

History.—Prevalent errors in teaching it, too much detail, want of perspective, uselessness as to pupils' real understanding of its subject matter, failure to bring into any relation with their first hand knowledge of things, excessive reliance on dull epitomes, failure to correlate with geography and language work. Importance of biographies, how to select and teach biographies. Necessity of a knowledge of human nature and of realistic treatment. Influence of the study of history on character. THE MADRAS VETERINARY COLLEGE PROSPECTUS.

As there appears reason to believe that intending candidates for employment in Government service are in many cases not aware of the existence of the Madras Veterinary College and of the prospects offered by a veterinary career, the following prospectus of the college is published for general information. The rules of the college and the scale of the provincial and the subordinate veterinary service are liable to be altered if need requires at any time.

1. The college affords theoretical and practical instruction in subjects appertaining to the veterinary profession with the object of training men for service under Government, Municipalities, Local Board or private employers. The staff of the college consists of a Principal, an Assistant Principal, three lecturers and a subordinate establishment. The responsibility for the discipline and management of the college is vested in the Principal who is subject to the control of Board of Revenue. Full clinical and other facilities are afforded to meet the education requirements of students preparing for the diploma in Veterinary Science. A veterinary hospital, museum, library, shoeing forge and students' hostel are attached to the college.

2. Candidates are eligible for admission without distinction of caste or nationality. They must not be under 18 years of age at the commencement of the term for which admission to the college is desired. In and more circumstances, no person over 22 years of age will be admitted as a free student. Students are admitted to the college by selection which will be made by the Principal. Applications for admission should be made in writing in the prescribed form printed at the end, and they should be submitted so as to reach the Principal not later than the 5th December of each year and should be accompanied by the following certificates—

(*a*) of age,

(*b*) of physical fitness and moral character,

(*c*) that the applicant has passed the Matriculation Examination of an Indian University or that he has obtained 45 per cent. of marks in English and 35 per cent. in other subjects in the School Final Examination, except in the case of Europeans and Eurasians who may be admitted, though unpassed, at the discretion of the Principal.

3. In the event of a candidate being selected, he will be served with a special notice informing him of the particular day and hour when and the place at which he should present himself for personal selection. Candidates when admitted will be considered to be on probation for the first two months of the course and may be removed if found to be not satisfactory.

4. *Course and study and curriculum of instruction.*—The course of study for the diploma ordinarily extends over three years. The students of each year's course form a separate class. The number of students in each class is ordinarily limited to 30. Promotion from one class to another is made with reference to the results of the annual examinations. A student who fails in the class examination for two consecutive years shall be removed from the college.

The curriculum of instruction is as follows :—

(i) *First year*—

(1) Anatomy (up to Arthrology).
(2) Elementary Chemistry.
(3) Elementary Botany.

(2) Physiology.
(3) Hygiene (including Breeding and Rearing).

During this year students are required to attend hospital practice and receive clinical instruction. They are also required to attend at the Forge and Pharmacy, to carry out dissections and to perform operations on the dead subject.

During this year students are required to perform the duties of clinical clerks and dressers, to perform operations on dead subjects, and afterwards on living animals, to conduct *post mortem* examinations and generally to carry out practically all the duties appertaining to their profession. Students who hold the diploma in Agriculture are not required to attend the first year's course of study, but are examined in the subjects of both the first and second year courses at the end of their first year of attendance at the Veterinary College.

Students who have passed in Chemistry or Botany in the Intermediate or B.A. Examination need not attend the course in Elementary Chemistry or Botany, as the case may be at the Veterinary College.

All students are required to undergo a course of equitation and gymnastics. A student absenting himself without leave from a lecture or from a practical, gymnastic or riding class is liable to be fined.

5. The tuition shall be free to all students who execute an agreement binding themselves to serve Government for five years, if required, after completing their course in the college satisfactorily. All others will be required to pay tuition fees in advance of each term at the rate of Rs. 240 per annum. A fee of Rs. 2 per term is also payable by each student, whether free or paying, to meet the cost of sports.

5 Government ordinarily allot thirty scholarships in each class annually, two of the monthly value of Rs. 20 each, which will be reserved for graduates of a University preferably those who have taken a Science degree, and the remaining twenty-eight of the monthly value of Rs. 10 each, but they reserve the right to decrease the number or alter their value, if necessary. Scholarships in the first year will be awarded by the Principal on the results of the first three monthly examinations. Scholarships tenable in the second and third years are ordinarily allotted on the results of the monthly and annual examinations. A student already in the enjoyment of a scholarship from a local body or a private person is not eligible for a Government scholarship. All scholarships are conditional on the good behaviour of the holders. Students who are in the enjoyment of the Government scholarships are required to refund the amount which they have received as stipends and also to pay tuition fees at the rate of Rs 240 *per annum*, if they leave the college without sanction or are expelled for misconduct.

7. *Terms and time-table.*—Each year comprises two terms—a spring session from January to March and an autumn session from July to December. Tables of the times and subjects of lectures to which both teachers and students should adhere will be posted on the notice board at the commencement of each term.

8. *Vacations and holidays.*—(i) In addition to the miscellaneous public holidays, the students are allowed the following vacations and holidays :—

Midsummer vacation (three months),
Michaelmas holidays (one week),
Christmas and Easter holidays (gazetted).

Students are required to attend hospital cases in turn during vacations.

(ii) Leave of absence is granted by the Principal only. Scholarship holders may, at the discretion of the Principal, be granted casual leave, with allowances, for not more than five days at a time or ten days in the year, but no casual leave will be granted in continuation of other holidays with allowances. Any further leave to scholarship-holders except sick leave for a month will be subject to stoppage of scholarship. Leave of absence in each case of illness will be recognised only on the production of a certificate from a duly qualified medical practitioner.

O. G. MACKAY,
Registrar.

High Court of Judicature at Madras,
8th September 1915.

Under the provisions of section 122 of the Code of Civil Procedure, 1908, the following draft rules to be substituted for the present rules 41—50 of the Civil Rules of Practice, 1905, are published for the information of all persons interested, and it is hereby notified that these modifications and additions as well as any objections or suggestions which may be received in respect of them from any person interested in the matter will be taken into consideration on or after the 25th October 1915, viz :—

Certified Copies.

41. When a person is entitled to obtain a copy of a proceeding or document filed in or in the custody of the Court, he may present an application therefor to the Superintendent of copyists or where there is no such officer, to the chief ministerial officer in person. If the proceeding or document has been sent to another Court, the application may, at the option of the applicant, be forwarded to the said Court for compliance or be returned to him, for presentation to the said Court.

42. The application shall be in Form No. 13 and shall set out the name of the applicant, and his position in the suit or proceeding, and a description of the document of which a copy is required, and an application which is not in proper form shall be returned for amendment.

43. Every day between the hours of 3 and 5 P.M. a list showing the applications in which the records have been received, and the number of stamp papers required, shall be prepared and affixed to the Court's notice board. Such list shall remain suspended for three days, or, if the last day is a holiday, till the next Court day. If the required stamp papers have not been deposited by 3 P.M. on the fourth day counting that on which the list was suspended or, if the fourth day is a holiday, then on the next Court day, the application will be struck off. Between the hours of 3 and 5 P.M. on each of the intermediate days, the applications upon which the requisite deposits have been made shall be struck off the list. The procedure above prescribed shall apply also to calls for additional stamp papers when the number first supplied has been found to be insufficient. Provided that, where the additional stamp papers called for are not deposited, but the stamp papers originally deposited are sufficient for the preparation of complete copies of one or more documents applied for, the application shall be struck off only as regards the documents which cannot be prepared by reason of the insufficiency of the stamp papers supplied; but it shall be complied with by delivery of such of the completed copies as can be prepared on the stamp papers supplied, the decision of the Superintendent as to the documents to be selected for copying being final.

44. A list of copies ready for delivery shall be posted on the notice board of the Court, and shall remain thereon for three clear days other than holidays. The copy and any unused stamp papers shall be delivered to the applicant between the hours of 10-30 and 11-30 o'clock in the morning and 3 and 5 o'clock in the afternoon; and, if not claimed by the applicant, within twelve months from the date of posting the said list, shall be destroyed. No party shall be entitled to the return of stamp papers which are used, but in which an incomplete copy is written. But the incomplete copy may be completed, if the necessary additional stamp papers are deposited under the orders of the presiding officer within six months from the date of striking off, and may then be delivered in the usual manner.

45. The applicant may, in his application for a certified copy, apply that the same may be delivered to him through the post, at a specified address; and, in such case, the copy shall be forwarded accordingly, and, if the application so requires, by registered post.

46. All copies furnished by the Court shall be certified to be true copies, and shall be sealed with the seal of the Court. The Superintendent of copyists, or other officer appointed by the Judge, shall initial every alteration and interlineation in the copy, and shall sign a certificate at the foot thereof that the same is a true copy, and shall also state the number of alterations and interlineations made therein.

47. Every copy shall bear an endorsement showing the following dates :—

(1) Application made ;
(2) Stamp papers (or charges) called for ;
(3) Stamp papers (or charges) deposited ;
(4) Copy ready ;
(5) Copy delivered (or posted).

48. (1) One stamp paper of the value of two annas shall be brought in for every 175 words, or fraction of 175 words.

(2) Four figures shall be taken as equivalent to one word ; and vernacular words with short suffixes and inflections shall be counted as single words.

(3) The cost of copying maps, plans, genealogical trees, tabular statements, or other work requiring skilled labour shall be fixed by the Judge, and deposited in Court in cash. Notice of the amount so fixed shall be posted on the notice board of the Court ; and the provisions of rule 43 with respect to the payment of monies for copies, shall apply.

49. (1) When a copy of judgment or order passed by a Civil Court is applied for by a party to the suit or proceeding for the purpose of appealing against it to the District or Subordinate Judge's Court, the copy shall be printed, provided the length of the judgment or order (excluding the names of parties and witnesses and the list of exhibits) exceeds 700 words. In cases where the length of the judgment or order does not exceed 700 words, the production of a printed copy is not compulsory. When the plaintiff and defendant apply separately for copies of the same judgment, each must pay the full printing charges and each application will be dealt with by itself irrespective of the other.

(2) The general procedure in applying for such copy, and in disposing of the application shall be that laid down in the above rules relating to certified copies. The Superintendent, examiner or other officer shall calculate the charges required for printing the judgment or order, reckoning at the rate of 4 annas for every 175 words completed and for the remaining words, 1 anna for every 50 words or fraction thereof. Four figures, or four simple letters used as abbreviations, shall be taken to be equivalent to one word. The names of parties and witnesses and the list of exhibits shall also be printed and included in the charges according to the above rates. When tabular statements, genealogical trees and the like, form an integral part of the judgment, they shall also be printed. A special rate for printing these shall be fixed by the Court concerned in each case, having regard to their length and complexity and the space they occupy.

(3) The applicant shall thereupon be informed, by notice of the amount payable by him for printing charges and for postage in cases where it is leviable under clause (7) *infra*, in the same manner as he is now informed of the number of stamp papers required for a manuscript copy and at the same time he shall be directed to pay that amount in cash by any means he may choose, direct to the authorised printer whose name and address shall be stated, within seven days of the date of the notice in default of which his application for copy will be struck off.

(4) The printer shall ordinarily supply four printed copies to the Court. On receipt of the four printed copies, they shall be authenticated and two copies shall be delivered to the applicant, one bearing an endorsement of dates, such as are endorsed upon manuscript copies, save that the word "charges" shall be substituted for the words "stamp papers" to be filed with the appeal and used at the hearing, and the second to be kept by the appellant for his own use. In computing limitation, the Court may allow, out of the seven days allowed for the payment of printing charges, as many days as it deems fit in such case as time requisite for obtaining a copy, if the printing office is five or more miles distant from the Court calling for the charges. The two remaining copies shall be placed with the records of the case, one to be given *gratis* to the respondent and one spare copy for supply, also *gratis* to second or more respondents having separate interests in the subject matter of the appeal, or for any other exceptional use. The costs of printing and of postage when they have been incurred under clause (7) *infra* shall be made costs in the appeal, and the Appellate Court shall declare by an express order whether they are to be borne wholly by the appellant or by the respondent or respondents, or proportionately, and in what proportion by each party.

If an appellant requires more than the two copies allowed him by this rule, such extra copies shall be supplied to him on payment of charges calculated at a rate not exceeding one anna per page.

(5) When a copy of the judgment or order passed by an Appellate Court is applied for by a party to the suit or proceeding or appeal for the purpose of appealing against it to the High Court, such copies shall likewise be printed.

On receipt of such application, the Superintendent, Examiner or other officer may, unless the applicant otherwise requests, call also for the judgment or order of the Court of First Instance, against which judgment or order was passed in appeal, and shall collect the necessary charges for printing both. In such case the printer shall, ordinarily, supply eight printed copies six of which shall be delivered to the applicant.

Out of the six copies delivered to him, he shall be charged for two of such copies at the rate mentioned in clause (2) above and for the others he shall be charged at a rate not exceeding one anna per page.

If the applicant applies for more copies or if any other party to the suit, appeal, proceeding or connected suit in cases where there is one judgment or order for several connected suits applies for copies before the order is issued for printing or within a week of the application, whichever is longer, such copies shall be supplied on payment of charges calculated at a rate not exceeding one anna per page.

If any application is made after such date, the full printing charges must be paid and such application will be dealt with irrespective of any other.

(6) In order to show cause, when required, why an appeal from an original order or from an appellate decree or order should not be dismissed without notice under Order XLI, rule 11, read where necessary with Order XLII or Order XLIII, rule 2 of the First Schedule to the Code of Civil Procedure, 1908, a party may apply to the District or Subordinate Judge's Court to print a decree or any other paper or if it be not in the English language may present for printing a translation in English of the same certified by his pleader to be a true translation, such applications shall be dealt with in the same manner as applications for the printing of appellate judgments, provided that printed copies can be delivered to the applicant with copies of the judgments for which he may have applied under the above rules.

(7) If the Court is more than five miles from the printer, the party applying for the copy shall pay for the postage, which like the printing will be taxed as costs in the cause. A uniform rate of one anna for every 700 words shall be charged to the applicant for postage in addition to the charges for printing, and it shall be included in the notice given to him under clause (3) *supra* for payment direct to the printer.

50. Costs of printing or copying or of transmission of copies by post may be taxed and dealt with as costs in the cause.

Registrar.

SALT, ABKARI AND CUSTOMS DEPARTMENT.

APPLICATIONS are invited from individual capitalists or salt trading companies or firms for laying out a block of about 121 acres of land to the south of the existing Chinnagunjam Salt Factory and working the same as a model saltern on the Fowler lines for the production of light salt under the Bombay system. The salient characteristics of Bombay salt are (1) its excessive hardness which enables it to bear any amount of rough handling without crushing, (2) the rapidity and completeness with which it drips, (3) its lightness and (4) yielding a larger number of measures per maund when compared with the ordinary salt hitherto manufactured.

2. Chinnagunjam is a railway station on the Madras and Southern Mahratta Railway and the present factory is situated within two miles of the railway line thus affording ample facilities for trade .. .. ..

3. The chief object in inviting applications is to encourage local industry and to extend this system of manufacture of salt in other factories as well.

4. The land will be assigned on a lease of 10 years to be worked under the modified Excise system. Under this system the lessee may be called upon to deliver to Government the quantity of salt produced in the block during any one season either in whole or in part at a fixed price per garce of 120 measures of salt. A higher rate will be offered for salt measuring over 60 measures to the two measure bag. If not so called on, the salt may be taken over by him and stored and sold on his own account.

5. The lessee will have to bear all expenses for bringing the land into cultivation and will have to construct all necessary works as directed by the officers of the Salt Department. These works will have to be maintained annually at the expense of the lessee during the term of the lease to the full satisfaction of the officers of the department.

6. It may be open to either party to terminate the lease by giving to either of them three calendar months' notice before the commencement of the manufacturing season. In such an event the lessee shall be entitled to claim reasonable compensation in respect of the capital expenditure incurred by him on works, buildings, construction of platforms, drying grounds and alignment of pans, etc. Proper accounts, which shall be open to audit by the officers of the department, should be maintained by the lessee of all such capital expenditure.

7. The lessee may, with the consent of the Commissioner, Salt, Abkari and Separate Revenue, Madras, take one or two approved partners.

8. The lessee should pay all establishment charges in excess of 5 per cent of the duty collected on the quantity of salt sold in the new extension in the previous year.

9. The lessee should deposit a sum of Rs. 2,000 as security for the due fulfilment of the terms of the lease.

10. The alignment of the pans and the proportion of reservoirs, condensers and crystallising beds should be as directed by the officers of the Salt Department.

11. Out of the area proposed to be leased nearly two-thirds of the area will have to be set apart for the construction of reservoirs and condensers, the remaining area being utilised for crystallising beds.

12. Under this system of manufacture of salt only sea brine will be allowed to be used and not pit brine under any circumstances.

13. Applications should be submitted with a deposit of Rs 1,000 which may be remitted into any Government treasury and the receipt enclosed. The deposit of all unsuccessful tenderers will be ordered to be repaid.

14. The tenderer, as soon as his tender is accepted, shall have to execute a lease in a form approved by the Board of Revenue, Separate Revenue. If the successful tenderer fails to commence the works within a fixed period both the deposit and the security amounts referred to in clauses 9 and 13 will be forfeited to Government and the land assigned to others.

15. That the lessee should be bound to maintain proper account showing quantity of salt raised, obtained or manufactured out of or upon the said premises and submit true copies of accounts on the 1st day of April, July, October and January or within 14 days therefrom, for the quarter preceding and to produce, if required, vouchers for the same and will once in every year publish in the *Gazette District Gazette* a statement of income derived from the business carried on upon the demised premises and of the expenditure thereon for the preceding year.

16. The lessee shall have no power during the said term of lease to deliver up, assign or part with the possession or sublet the whole or any part of the demised premises or shall he have power to dispose of by way of sale any of the powers granted to him under the provisions of the lease except with the written consent of the lessor, his executor, administrators and assignees.

17. A copy of the lease which should be executed is available for the perusal of the applicants and may be seen at the Circle office during business hours on any working day.

18. Any further particulars required may be ascertained from the Inspector, Salt, Abkari and Customs Department, Kasaparti Circle, Kasaparti.

19. The applications should reach the Assistant Commissioner of Salt, Abkari and Customs Department, Nellore, on or before 1st November 1915. They should be sent registered. The covers containing the tender should be superscribed as tender for working the Chunnaganjam extension.
